Dear Parents/Carers

As part of our personal development offer for Penshurst learners, we are adding aspiration assemblies to our timetable. We have already started to develop links with local businesses that are willing to deliver an assembly or work with our learners delivering workshops.

We feel it is very important to raise the aspirations of our learners and provide them with the opportunity to learn about a wide range of careers that are available to them in the future. We are also intending to use this year's Science week in March, to introduce our learners to a range of STEM careers.

To facilitate this, we are seeking the support of any parents and carers who would be willing to come in and speak to the learners about their jobs. Ideally, we would be looking for parents and carers who are able to deliver an assembly to our learners or would be interested in working with small groups/classes.

If you are interested in supporting us in this, please complete this [survey](#) no later than Friday 14 February. If we do receive a large response, we will select the broadest range of careers we can. Equally, if you have links to any local companies that you know well enough for us to approach, please do pass us the details. We currently have representatives from Reckitts, Northern Gasworks and Yorkshire Water working with us.

Our aim is to provide an engaging, broad and balanced curriculum for our learners and one that raises their aspirations. We would love to be able to meet this aim for the children.

Thank you for your continued support.

Yours faithfully

Mrs C Davies
Assistant Headteacher
